ACCOUNTING & INVENTORY MANAGEMENT SYSTEMS

'Tally' is a Complete Business Solution. As your business grows and transcends state and international borders, you need a business accounting software that keeps pace with your complex business demands and simplifies growth. The software you choose must offer you greater speed, power and reliability, besides having the ability to adapt quickly to your business. 'Tally' was engineered to effectively fulfill these needs and help overcome the challenges of a growing business.

'5th GEAR' is an ERP Solution built on revolutionary technology – Axpert by Agile Labs Bangalore, India. The innovative technology platform of AXPERT will be a perfect fit in Sri Lankan ERP software industry because of its ability to deliver an appropriate solution with a minimum total cost of ownership & maintenance, plus a greater flexibility in catering to all needs of a business. Through AXPERT, 5TH GEAR ERP delivered solutions across various domains including Manufacturing, Trading, Services, Logistics, Textile, Construction, eGovernance, etc.

PAYROLL MANAGEMENT SYSTEM

'PMS' is a powerful payroll management software system. It makes payroll processing a simple job that any company can accomplish in a simple way. Our payroll management software gives you all the information and options you need to process your payroll fast, while ensuring efficiency and accuracy.

FREIGHT MANAGEMENT SYSTEM

'Fast Freight' is a total package that will handle all the operations involved in Freight forwarding. 'Fast Freight' enables the user to handle the operations in a computerized environment where the user will be benefitted by easy and user-friendly interfaces and fast access to the information.

CUSDEC & FORWARDING MANAGEMENT SYSTEM

'Cusdec Simple' puts you in control of your customs declaration documentation, and maximizes the value of this important function. It gives you more flexibility to respond to last minute changes, better access to the information you need, and more power to get the job done timely and accurately. Once you start using 'Cusdec Simple' you'll appreciate its speed, flexibility and intuitive interface.
